

Waitrose Own Label Products

Suitable for those Avoiding Mustard

Advice on mustard allergy

Individuals that have been diagnosed with a mustard allergy should avoid eating any food that comes from the mustard plant, including jars of mustard, mustard powder, mustard leaves, seeds and flowers, sprouted mustard seeds, mustard oil, and foods that contain these. Allergic reactions to mustard can cause severe reactions, including anaphylaxis.

Traditional mustard and cress contains seedlings grown from mustard seeds and because it generally isn't pre-packed, it wouldn't have to be labelled as containing mustard. But much of what is sold as 'cress' in the UK comes from other plants and doesn't include any mustard.

Important Information:

The way Waitrose label foods is changing to meet European legislation. Allergens will now be highlighted in bold in the ingredients list, instead of the allergy advice panel. These changes will be fully effective by December 2014.

In the meantime both new and old labels will exist, so please check the label carefully to ensure the product is suitable for your diet.

This list contains Waitrose own-label products (excluding those served loose and over the counter) that are free from the following:

- Jars of mustard
- Mustard powder
- Mustard leaves
- Mustard seeds
- Mustard flowers
- Sprouted mustard seeds
- Mustard oil

Lists are updated on a regular basis as recipes may change occasionally. Customers are advised to always check the ingredients lists on pre-packed products and ask for information on products served over the counters.

Waitrose Limited (The Company) has produced this list for the general information of the public. It contains information gathered from various sources and although the Company believes it to be accurate at the time of publication, the Company accepts no responsibility for, and makes no representation nor gives any warranty or undertaking express or implied as to the accuracy or completeness of the list.
